FOOTNOTES:

1. For standard models, the panels of the casing are made of galvanized steel. Optional stainless steel panels are also available. In that case, the first letters of the model numbers become KXSF instead of KSF.
2. Certification applies only to units with water as the working fluid.
3. The JACIR KSF line of cooling towers has also received Eurovent Certification Company (ECC) Certification Diploma N° : 15.02.001 on January 29, 2015 (re-checked February 2, 2015). See <http://www.eurovent-certification.com> for additional information.
