## Footnotes:

- Multiple cell configurations of the single cell models above are also available but not listed individually. Multi-cell configurations are end-wall to end-wall arrangements of the single cell designs which do not impact the air flow rate or capacity of the individual cells, and are included in the certification.
- CTI certification of thermal performance currently applies only to units with water as the process fluid and galvanized steel heat exchanger tubes.
- Certification includes access and maintenance options that do not affect thermal capacity.
- Sample model number: RCS-062ED  
Where:  
RC = Line Designation  
S/D = Single Inlet / Double Inlet  
062E = Unit model  
D = Fan Code
