**SPX Cooling Technologies (Marley)
 LW Series of CTI Certified Closed-circuit Fluid Coolers
 CTI Certification Validation Number C14P-16R01
 April 26, 2017 (Revision 1)**

AVAILABLE MODEL CONFIGURATIONS			
PRODUCT LINE DESIGNATOR	BOX SIZE DESIGNATOR	FAN MOTOR POWER DESIGNATOR	COIL DESIGNATOR
LW	032	G, H, J, K, L	B, C, E, F
LW	048	H, K, L, M, A	B, C, E, F
LW	064	J, L, M, N, B	B, C, E, F
LW	096	L, N, B, P, C	B, C, E, F
Footnotes:			
1	Some model configurations are not available and capacity adjustments are required for many nonstandard model configurations. See selection software at www.spxcooling.com for configuration availability and specific capacity of each available configuration.		
2	Certification applies only to units with water, ethylene glycol solutions up to 50% concentration and propylene glycol solutions up to 50% concentration as the process fluid. See rating tables or selection software for the effect of glycol solutions on thermal performance and pressure drop of a specific model and operating condition.		
3	Certification includes access and maintenance options that do not affect thermal capacity.		
4	Certification includes discharge damper options that do not affect thermal capacity.		
5	Multiple cell models of the single cell models above are also available.
