#### Footnotes:

1. Multiple cell configurations of the single cell models above are also available but not listed individually. Multi-cell configurations are end-wall to end-wall arrangements of the single cell designs which do not impact the air flow rate or capacity of the individual cells, and are included in the certification.
2. Certification includes galvanized steel plate or stainless steel plate structure materials and PVC or glass fiber reinforced casing materials.
3. Certification includes optional items that do not affect thermal performance, for example, access ladder and handrails.
4. Certified Model Number Example: TCC-150R x2  
TCC – Line Designation (Tyacht Low Noise Closed Cooling Tower)  
150R – Model Number (unitless)  
'x2' – Two cell arrangement of the primary TCC-150R certified model.
