Footnotes:

1. Multi-cell combinations of the primary one-cell models are end-wall to end-wall arrangements of the single cell designs which do not impact air flow or capacity per cell, and are included in the certification. See example model numbers, below.
2. Certification includes galvanized steel plate or stainless steel plate structure materials and PVC or glass fiber reinforced casing materials.
3. Certification includes optional items that do not affect thermal performance, for example, access ladder and handrails.
4. Suffix *N designates the number of cells. See examples, below.
5. Certified Model Number Examples
Example 1: CDW-135ASY-C*1 Includes low noise fan option (AS); Suffix *1 is single cell.
Example 2: CDW-135ASSY-C*2 Includes super-low noise fan option (ASS); Suffix *2 is two cells.
