Footnotes:

1. Multiple cell configurations of the single cell models above are also available but not listed individually. Multi-cell configurations are end-wall to end-wall arrangements of the single cell designs which do not impact the air flow rate or capacity of the individual cells, and are included in the certification. See example model number below.
2. Certification includes units with optional gear drive in place of standard belt drive.
3. Certification includes galvanized steel or stainless steel structural materials and PVC or glass fiber reinforced casing materials.
4. Certification includes optional items that do not affect thermal performance, for example, access ladder and handrails.
5. Certified Model Number Example: DMNC-42/12-28x2  
DMNC – Line Designation  
42/12-28– Model Number  
'x2' – Two cell arrangement of the primary certified model (capacity equals 2 times rated capacity)
